**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

AT&Ts plan all along has been to get the government to protect their business by writing laws to block competitors. They want the FCC to eliminate any requirements or obligations on AT&T and the local phone companies and remove the rights of competitors to rent the networks at wholesale rates.

This plot is deep and disturbing as it a massive state and federal campaign to shut down Americas utilities. And its clear that neither the FCC nor the state commissions are capable of protecting the public interest.

Shame on you FCC. You forgot. We are supposed to be making America great again and for Americans that means having access to competition which actually generates innovation!!!!!!!!!!
